## AREA OF SQUARES AND RECTANGLES

The area is the amount of space inside a 2D shape.

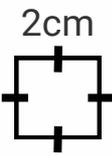

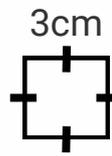

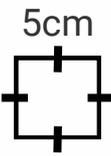

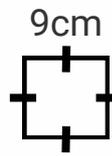

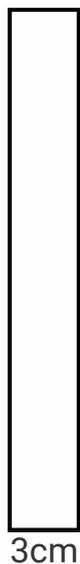

### Key Formula:

Area of a **Square** = Length x Length

Area of a **Rectangle** = Length x Width

Remember, the area is always written in **square units** (e.g.,  $\text{cm}^2$ ,  $\text{m}^2$ ).

Calculate the area of the following (**not drawn to scale**):

- 1)  2)  3)  4)  5) 
- 6)  7) 

**Be careful with your units!**

- 8)  9) 
- 10)
